## 4. INSTALLATION SCENARIOS

### INSTALLATION WITH DAIKIN WIRED REMOTE CONTROLLERS

Connect Core AC Gateway parallel with Daikin wired remote controllers or directly to the P1,P2 connectors of the Daikin indoor unit. In this method, only one controller can be master. Core AC Gateway should be programmed as master, while Daikin wired remote controller programmed as slave or Core AC Gateway should be programmed as slave, while Daikin wired remote controller programmed as master.

### INSTALLATION WITHOUT DAIKIN WIRED REMOTE CONTROLLERS

Connect Core AC Gateway directly to the P1,P2 connectors of the Daikin indoor unit. In this scenario, Core AC Gateway should be programmed as Master.
