

Designed for Exclusive Living Spaces

Multi-Room Audio Streamer
Connected - Integrated - Embedded

We offer exclusive smart home experience for your living spaces with unique products and features based on design and technology.

Technology

We are constantly working to provide innovative solutions in every product we develop. Innovation will appear in different forms in each Core products. Sometimes as a different sensor technology, sometimes by using a new production technique, sometimes by offering a different user interface.

Design

We believe in the power of simplicity in design, and we work hard to create minimalist, beautiful and intuitive products for your smart home. You can see the perfection in the details and the originality in the design in all Core products.

Craftsmanship

We carry out all electronic manufacturing, mechanical manufacturing, assembly, and quality control processes with our skilled personnel and state-of-art machinery in-house.
